

Dear Students,

By now you should all have received the information on the seminar attached to the course(s) that you are enrolled for but for your convenience you can also download the applicable letter from the website.

These seminars are usually the highlight of the Ethology Academy academic year. The seminars are not only aimed to be excellent learning opportunities, but also provide the students with opportunities to meet fellow students and perhaps to do a bit of networking - and also of course to meet the presenters in person and ask all those difficult questions.

If you have not yet sent in your return form, please do so ASAP.

Should you have any questions about the seminars, please don't hesitate to contact Hanna.
